Fire Safety Afternoon With Our Local Rural Fire Service

*Please note it was too smokey in the house therefore
no pictures to publish.*

Lilly had the opportunity to interview Ned for the Kareela Courier.

Ned thought the afternoon was really fun and said to Lilly-Beth that the best part of the session was the smoke house where the children went into a smokey house which was like a "smokin' jumping castle without the jump" and we had to crawl out of the house to safety. Don't worry mums, it wasn't real fire smoke.

Ned found the session really valuable as it gave him the skill to leave a burning house. Ned rated the afternoon a 9/10 for its fun and importance.

Our Regional Athletics Winners Talk About Making To State

According to Lilly, "we didn't get to really train much together as a team but I was amazed how fun it was. I still don't know how we did it".

When asked if they were excited about making it to State, Heather said "I was excited but also I have butterflies and am a bit nervous about State". She also added, "Thomas was excited and Lilly also has butterflies too. We all can't wait".

David thought they all went well with" Heather starting well, Lilly and I overtaking a couple of people while Thomas took it home for us to gain third place and a spot at state." Thomas realises that "we need to improve on our baton changes to increase our time but feels that our team is made up of really fast runners".

Life Education Van - Years 3-6

In the van the children were taught to think about the consequences of what they say and do on social media... the children were asked to apply this rule of thumb when using social media such as twitter, instagram and facebook.

\$7280 per year for a \$20 a day cigarette habit

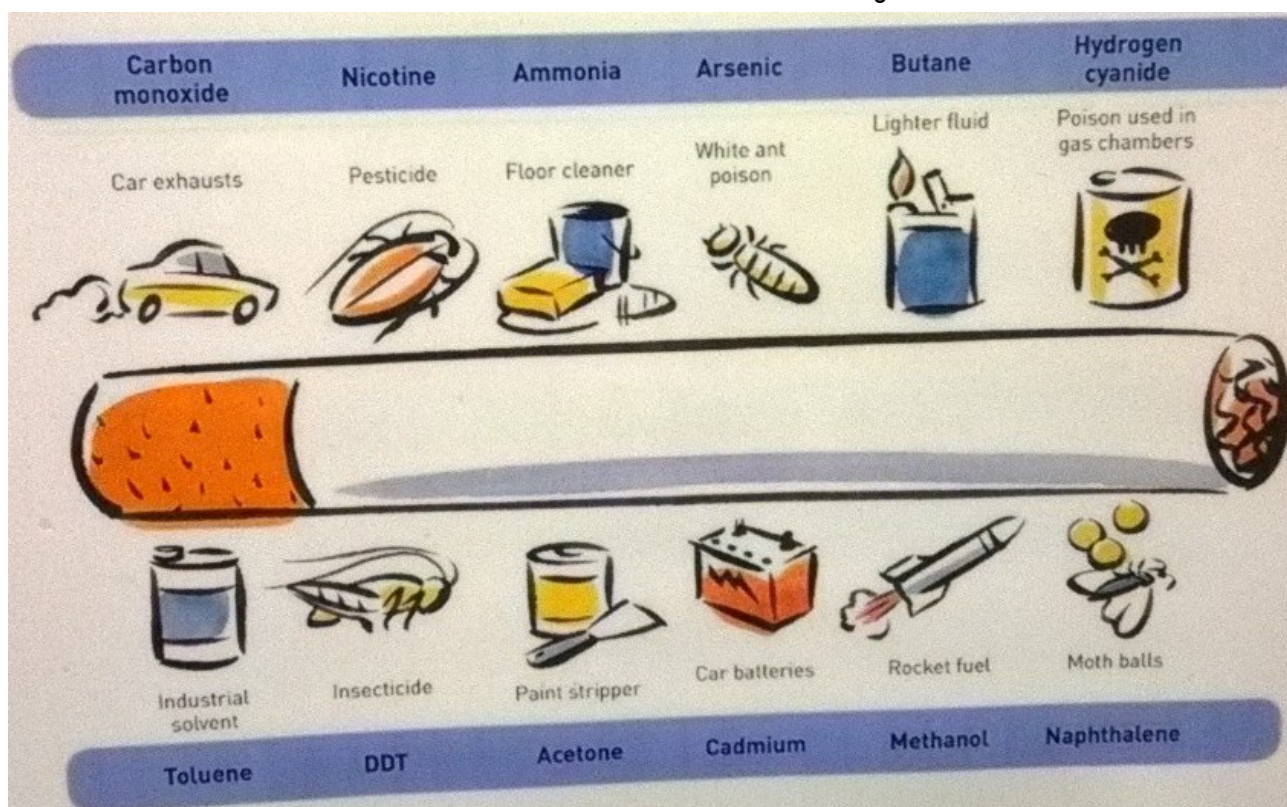

Life Education Van -Years K-2

This is what Luca had to say when interviewed by Heather: "we learnt that our environment isn't that clean because of the chemicals coming out from the car engines." Luca said that her favourite part of the session was when she "saw Happy Harold dressed up as a Super Hero with under pants on his head, and I got to pat him."

Luca thought that it was important what they learnt has "you want to be careful and we need to take care not to pollute the air we breathe.

It sounds to us that the K-2 group had a wonderful time at Wingello in the Life Education Van.

Children learnt about the 4000 chemicals in cigarettes, above are just a few of the nasty ones.

Cupcakes For A Cure

Today we sold cupcakes that we made in class yesterday for The Kid's Cancer Project. So far we have raised over \$80 to support Childhood Cancer Awareness Month and helping to fund Australia's best research into cures for childhood cancer. Parents joined us for morning tea with a warm cuppa in the staffroom, purchasing the scrumptious cupcakes their children created.

The few that were left over are to be sold at the Penrose Store for \$3.

A special thank you goes to Danyle Cummings who made many more cupcakes to sell on the day, as she foresaw the huge sellout.

Thank you also to Alison Duthie who helped keep the boiling water ready to supply the visitors with warm cups of tea and coffee on such a wet and cold day. Oh, a big Happy Birthday Ryan too!

Responsible
Pet Ownership

**Very soon
the Responsible Pet Education Program
is coming to visit you at your school!**

My pet dog will be coming to help teach you how to be safe around dogs and how to say hello to dog with their owners!

There will be lots of listening, role plays, singing and some dancing.

Visiting K-2 Class

My dog may even meet you during the visit.
