## GET INTO THE COOKING!

We do cooking because it expresses our feelings to learn how to cook. We started cooking about 10 years ago, when our Japanese teacher Alex came to Penrose Public School. We have different types of Japanese cooking like Japanese feasts, just cooking food by itself, Japanese breakfast, lunch and dinner!!!

Caption: an example of what our breakfast looked like 😊😊😊

## GLENQUARRY EXCURSION

On the 28th of August, Penrose Public School and other small schools, attended Glenquarry Public School for a small schools Collaboration Day. All the schools were mixed up into age groups. They also participated in different activities like Lego story building, obstacle course, detective culprit hunt and a focus activity. Kangaloon, Burrawang, Yanderra and Avoca public schools attended the Collaboration Day. All the students received a sausage sizzle, along with a bag of chips, a cookie and a juice popper for lunch.

# SCHOOL ARTS

Henri Matisse — Penrose Class Coral

**These artworks were created by the P.P.S students. The coral artwork was recreated just like Henri Matisse's one. The ballerinas were recreated just like Edgar Degas's arts. The Chameleons were a fun activity with Mrs Perkins where the students used textas and foil to create a paint-like liquid. They then put it onto their Chameleon cut out. We think they look great! ## POEMS

---

A Haiku poem is a poem where the first and third line have 5 syllables and the middle line has 7. Most Haiku's have a element of nature in them.

Penrose is the best,  
We only have 7 kids,  
It has lots of bush.

## JAPANESE CALLIGRAPHY

Gia, Year 6

In Japanese we have also been learning some calligraphy (SHUDO) with authentic resources such as calligraphy brushes from Japan and Japanese calligraphy ink. It's really hard but very interesting and fun!

The Kanji above is "Tanabata" which is a traditional festival held on the 7th of July every year (Star Festival). It is based on the ancient legend of the stars Altair and Vega, which are usually separated by the Milky Way. On the 7th night of the 7th month, Altair and Vega are visible in the sky close to each other. Japanese people celebrate this event by writing their wishes on a long piece of paper and hanging it on a bamboo tree.

Quokkas are cute  
They hop like a rabbit.  
Quokkas have a pouch.  
They sleep with their  
heads on their feet.  
They have two stomachs.

## **“Love at the Zoo”**

**Penrose stop-motion video  
(a little snippet)**

**Parker the penguin sits on his iceberg longing for a mate, but there’s an uneven amount of penguins in his enclosure.**

**“Why can’t I find a mate? I’ve tried so hard with my mating ritual. I’ve failed again” He sighs to himself.**

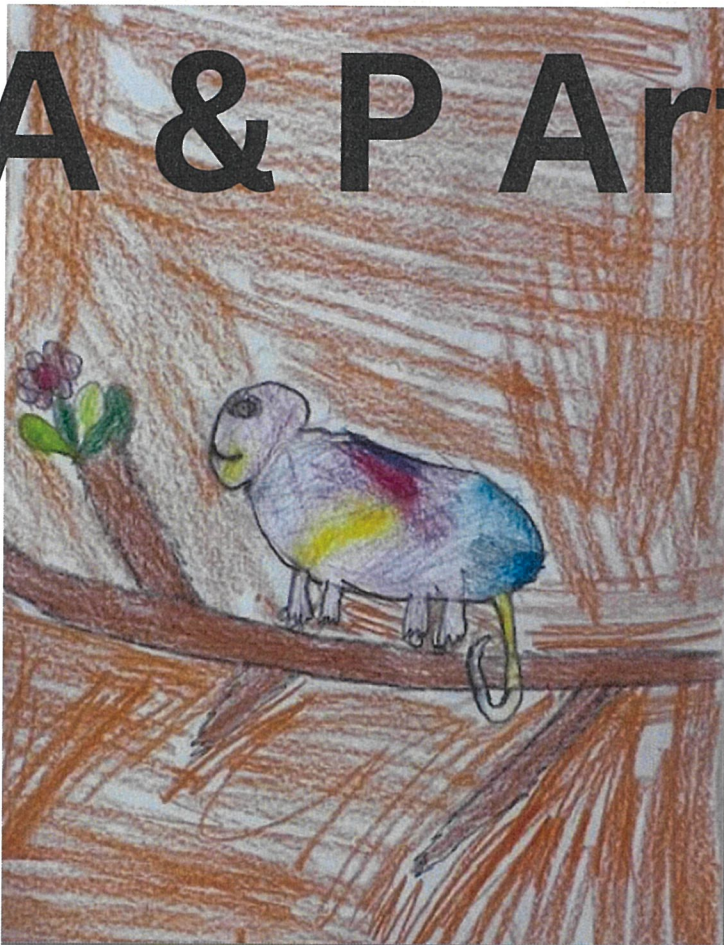

**Meanwhile at the other side of the zoo a love-struck ostrich passes up and down her yard “ It’s just not fair! Why am I the only animal at the Zoo that doesn’t have a friend?”**

**Zoo keeper 1: “ It’s such a shame we cant get Olivia a friend.”**

**Zoo keeper 2: “The buget is just too tight this year, that big fat elephant is taking all our money for his exercise treatment.” *To be continued...***

# MINECRAFT

## education

Penrose students have been creating minecraft houses to 3d print.

"Every Monday we have designed houses and it has been really fun!" Gia (year 6)

"Gia and I have been working together on a house and I love it!" Emme (year 6)

"It's an experience like never before. I have never played Minecraft ever!" Olive (year 4)

"It's really fun playing with another person I love the experience!" Kash (year 4)

Unfortunately students have had to pause on their houses to work on a play which is also the best of fun! Gia ( year 6)

# Music

**Our P.P.S students have been taking part in music. 3 students are doing guitar with Garth. One student is doing piano and everyone is doing choir with Mariama. Unfortunately, because Gia attends a class every Tuesday called HPGE (High Potential Gifted Education) she can not attend music with us.**
